

QPR Gatekeeper Training

Ask a Question. Save a Life.

www.qprinstitute.com

QPR stands for "Question, Persuade, and Refer". It represents a public health-based suicide prevention program to teach people to: recognize suicidal warning signs in others; persuade them to get help; and refer them to appropriate help resources. QPR Gatekeeper training is very much like a CPR training program. People become trained in a curriculum, practice what they learn, and then receive a certificate.

To schedule a QPR Gatekeeper Training for your agency and/or your staff, contact:
